

The Prehistory of Rapa Nui (Easter Island) Towards an Interdisciplinary Integrative Framework

Editors: Valentí Rull, Christopher M. Stevenson

Contents

INTRODUCTION

Valentí Rull, Christopher Stevenson

Part I. Transpacific voyaging and settlement

Chapter 1

Title: Ex oriente lux? Amerindian seafaring and Easter Island contact revisited

Authors: Atholl Anderson

Chapter 2

Title: Commensals/domesticates on Rapa Nui: what can their phlogeographic patterns tell us about the discovery and settlement of the island.

Authors: Vicki A. Thompson, Michael Herrera, Jeremy Austin

Chapter 3

Title: Sweet potato on Easter Island: insights from a monographic study of the genus *Ipomoea*

Authors: Pablo Muñoz-Rodríguez, John R.I. Wood, Robert W. Scotland

Chapter 4

Title: Pre-European contact sweet potato (*Ipomoea batatas*) at Rapa Nui: macrobotanical evidence from recent excavations in Rano Raraku quarry, Rapa Nui

Author: Jo Anne Van Tilburg, Jennifer Huebert, Sarah C. Sherwood, Casey R. Barrier

Chapter 5

Title: Ahu Nau Nau re-visited: new perspectives on old problems at Anakena, Rapa Nui

Authors: Paul Wallin, Helene Martinsson-Wallin

Part II. The ancient Rapanui culture

Chapter 6

Title: An assessment of refuge caves (*ana kionga*) on Rapa Nui

Authors: Christopher M. Stevenson, Juan G. Borrega, José M. Ramírez

Chapter 7

Title: Vinapu area revisited

Authors: Helene Martinsson-Wallin

Chapter 8

Title: Undelivered moai or unidentified monument?

Authors: Nicolas Cauwe, Morgan De Dapper

Chapter 9

Title: Cult platforms in motion: a genealogical architecture

Authors: Nicolas Cauwe

Part III. Climatic and environmental change

Chapter 10

Title: Climatology of Rapa Nui (Isla de Pascua, Easter Island)

Authors: Raymond S. Bradley, William J. D'Andrea, Henry F. Diaz, Liang Ning

Chapter 11

Title: Prehistoric paleoecology of Easter Island

Author: Valentí Rull

Chapter 12

Title: Geological and climatic features, processes and interplay determining the human occupation and habitation of Easter Island

Authors: Alberto Sáez, Olga Margalef, Laura Becerril, Christian Herrera, James Goff, Sergi Pla-Rabes, Laura Becerril, Luis E. Lara, Santiago Giralt

Part IV. Deforestation and extinctions

Chapter 13

Title: The flora and vegetation of Easter Island – past and present

Author: Georg Zizka, Alexander Zizka

Chapter 14

Title: Palms for the archaeologist

Author: David W. Ingersoll, Kathleen B. Ingersoll, Fred W. Stauffer

Chapter 15

Title: Spatio-temporal patterns of deforestation, settlement and land use on Easter Island prior to European arrivals

Author: Peter Steiglechner, Agostino Merico

Chapter 16

Title: Economic causes and consequences of deforestation on Easter Island

Author: James Brander

Chapter 17

Title: Palm forests to gardens and grassland: a study of environmental and geomorphological changes of the Te Niu, Rapa Nui landscape

Author: Joan A. Wozniak

Part V. Collapse or resilience?

Chapter 18

Title: Environmental change and cultural continuity – extraordinary achievements of the Rapa Nui society after deforestation

Authors: Andreas Mieth, Annette Külhem, Burkhard Vogt, Hans-Rudolf Bork

Chapter 19

Title: Ecology limits population, but culture determines it: carrying capacity on Rapa Nui

Author: Cedric O. Puleston, Thegn N. Ladefoged

Chapter 20

Title: Population principles, climate change and the “collapse” of the Rapa Nui society

Authors: Mauricio Lima, Eugenia M. Gayo, Sergio A. Estay, Nils C. Stenseth

Chapter 21

Title: Claims and evidence in the population history of Rapa Nui (Easter Island)

Authors: Carl L. Lipo, Robert DiNapoli, Terry L. Hunt

Part VI. European contact

Chapter 22

Title: The Human Giants of Easter Island (Rapa Nui). Eighteenth century fake news and its significance for understanding the persistence of present-day myths

Author: Jan Boersema

SYNTHESIS
